## Administering Medication Policy

Our Policy is not to be responsible for administering medication.

Ideally participants should take their medication before arriving in the lesson or club activity. If this is not possible, participants will be encouraged to take personal responsibility for their medication, where this is appropriate.

If participants carry their own medication (eg asthma inhalers), the coach will offer to keep the medication safe until it is required. Inhalers must be labelled with the participant's name.

Parents and carers must indicate on the Registration Form of any medical conditions.
